

 **NIKKEN**® Discover it. Live it.

The ideal balance of form and function.

Nikken Classic Collection
Nikken Kenko PowerBand™

Style to make you look good.

Whether you prefer the elegance and style of timeless pieces crafted from the finest durable materials — or the fun, spirited look of the Kenko PowerBand™ — these Nikken accessories are designed to be as exciting and energizing as they are attractive.

Energy components to make you feel good.

- 1 Nikken **Magnetic Technology** employs a spaced array of magnets inspired by Earth's natural magnetic field.

CLASSIC

Human beings have lived within the Earth's magnetic field for all of history — until modern civilization created devices that

interfere with this natural force. Nikken pioneered the concept of Magnetic Technology to help make your surroundings more like the natural magnetic field that has existed for millennia.

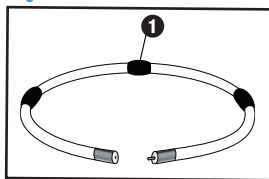

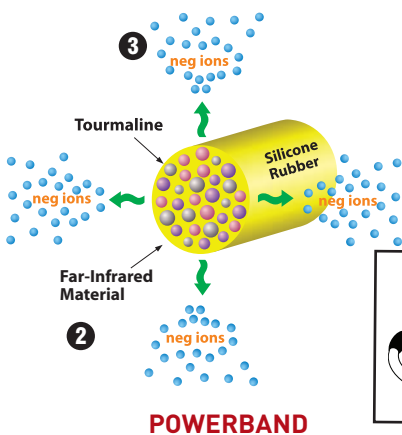

The magnetic segments in Nikken jewelry are rated at 700 to 800 gauss.

- 2 Nikken **Far-Infrared Technology** absorbs energy from multiple sources — ambient temperature, body heat — and reflects it as energy in the far-infrared portion of the spectrum. These wavelengths are part of all living things and necessary for survival. Far-infrared energy is expressed as a gentle warming effect, which can aid sore muscles and tendons.

3 Negative-Ion Technology features natural minerals that release these electrically-charged molecules. High levels of

negative ions are present in natural settings such as forests or near waterfalls, and impart a tranquil, relaxed feeling.

- Far-Infrared Technology
- Negative-Ion Technology

Classic Collection

This collection was created for Nikken by a team of top designers in Europe and manufactured according to standards of exacting quality. It combines fine craftsmanship, exclusive styling and Nikken advanced technology.

Stainless steel is employed as the structural material — exceptionally resistant to corrosion, discoloration and wear. Inserts of enamel accent the designs. Enamel resists wear better than a painted or coated finish, and provides a richness of appearance in gloss or matte surface.

Each piece is carefully polished to give it an unusual brilliance and make it more comfortable when worn against the skin.

1. Men's stainless steel and enamel bracelet

Powerful and professional, this bracelet for men emits more than a magnetic field and far-infrared rays. It makes the statement that you are a force to be reckoned with.

Item# 19086

2. Women's stainless steel and enamel bracelet

Energize your wardrobe with this bracelet made of high quality stainless steel and rich enamel inserts. It perfectly complements any outfit with a bold, yet elegant design.

Item# 19087

3. Women's stainless steel and enamel necklace

Look good and feel good with this stylish necklace. The dramatic play of contrasting surfaces in the glossy black enamel and sleek stainless steel creates a memorable impression.

Item# 19088

4. Stainless steel and enamel earrings

Complete your look with matching earrings, for a totally put-together appearance. The stainless steel posts and backing are naturally hypoallergenic.

Item# 19089

Nikken Kenko PowerBand

Professional and amateur athletes and thousands of other men and women have discovered magnetic necklaces and bracelets. The Nikken Kenko PowerBand is different — and unique!

Its lightweight design makes PowerBand ideal for wear during sports, and adds to its appeal with athletes and active people everywhere who don't want to be weighed down by heavy jewelry.

Only PowerBand has Nikken TriPhase® Technology. The TriPhase system combines the magnetic component with other innovations — far-infrared energy and negative ions — to provide these three features in one.

PowerBand has a composite core of tourmaline and silicone that is soft and comfortable yet holds up to wear. Its nylon outer shell is breathable and wicks away perspiration.

A design that inspires creativity

The durable clasp that unites each PowerBand also allows you to connect them in multiples — as many as you wish. Create a wristband, necklace or belt of any length.

The available colors offer endless opportunities for creating a variety of looks. Combine the colors for a striking effect.

Nikken Inc.

Nikken has been the world leader in wellness technology since we pioneered the concept in 1975. For more than 35 years, we have built on a tradition of wellness.

We are a company based on a unique idea. Other companies sell a product or service — Nikken offers a better quality of life.

Founder Isamu Masuda had a desire to help others, leading to solutions that address major concerns of modern living. This was the beginning of a worldwide enterprise that is now located in more than 35 countries.

Nikken products are designed to promote wellness in all aspects of living, and to be easily incorporated into any lifestyle. The Nikken business opportunity offers financial freedom as an Independent Nikken Consultant.

For more information on Nikken, the products, or the business opportunity, go to www.getmywellness.com.
