

# Natural filtration and PiMag – any time!

- Simple operation, advanced technology.
- Features several stages of filtration that work naturally by gravity flow.
- Ionized minerals assist in reducing water hardness, and help to regulate the acid/alkaline (pH) balance.
- Mineral elements produce pi water, a discovery known in Japan as “the water of life.”
- Nikken Magnetic Technology is added, as water passes through a magnetic field.

THE NIKKEN PIMAG™ AQUA POUR™ GRAVITY WATER SYSTEM IS PART OF THE NIKKEN PIMAG™ WATER PRODUCT LINE. OTHER PIMAG PRODUCTS:

**Nikken PiMag™ Aqua Pour™** — A countertop version of Aqua Pour technology.

**Nikken PiMag™ Water System** — A countertop unit that provides a supply of filtered PiMag water on demand.

**Nikken PiMag™ Optimizer II** — The high-tech innovation designed to optimize water, adjust pH, oxygenate, enhance mineral composition, add ions and pi.

**Nikken PiMag™ Ionic Filtration Water Bottle** — For PiMag water wherever you go.

**Nikken PiMag™ Vitalizing Shower with Vitamin C** — Provides a shower in PiMag water, and adds vitamin C for softer, smoother hair and skin and natural neutralizing of chlorine.

**Nikken PiMag™ Shower System** — Half of the substances in water that can be absorbed every day are in the shower. Make yours a PiMag shower.

**Nikken PiMag™ Pi Concentrate** — Pocket-size, lets you add pi to water or any beverage, anywhere.

**Nikken Magna-Charger™** — Focus-Field Magnetic Technology for household plumbing.

The contaminants or other substances reduced by this water treatment device are not necessarily in your water. Use only on municipally treated water or other supply known to be safe for drinking.

**CAUTION:** Use with cold water only. This product contains silver used to inhibit the growth of bacteria in the filter to prolong the life of the filter. Silver has a low toxicity to humans and the amount contained in the filter is less than the specified permissible amount for human exposure. Silver is toxic to fish and other aquatic life. This product is designed to remove objectionable tastes, odors, and colors from municipally treated tap water.

If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.

## Aqua Pour™

gravity water system

## Aqua Pour™

*deluxe*  
gravity water system

# I will drink PiMag water —

because daily rehydrating is an important part of staying healthy. And the PiMag Aqua Pour system gives me delicious, light, clean-tasting water — with the PiMag difference!

The Nikken PiMag™ Aqua Pour™ and Aqua Pour™ Deluxe combine natural operation with multiple-stage water filtering and Nikken PiMag technology.

Using an ingenious gravity flow system, these Aqua Pour designs provide you with Nikken PiMag water no matter where you are. It's a compact waterworks — producing PiMag water without plumbing.

For work, home, school or office — now you can enjoy PiMag water where it's most convenient for you.

## PiMag water — an amazing discovery

PiMag water was first identified in Japan over 30 years ago. Scientists found a remote area where a combination of geographical features produced water that had unusual properties. In this region, a narrow stream passes between two hills, one containing a material called magnetite, the other largely composed of calcium compounds. The bed of this watercourse includes silicates, the material that forms natural crystal.

Japanese scientists discovered that the water from this stream had amazing results on the surrounding plants. They named it pi water, “the water of life.” Then they set out to duplicate these natural conditions in the laboratory. The result is Nikken PiMag Water Technology.

PiMag Water Technology uses special ceramics and natural minerals to reproduce the environment where pi water was

discovered. Magnetic energy is added. This remarkable combination of technologies delivers PiMag water — a Nikken exclusive.

## PiMag water is good for you

PiMag water is an exceptional source of what your body needs. It can help restore the balance of fluids that plants, animals — and human beings — are composed of internally. PiMag water is absorbed and assimilated by your body, to help you rehydrate. You need water every day. With PiMag water, you're not only replacing fluids that are necessary for health, you're also enjoying the most delicious water you can drink.

## The Aqua Pour System

How did Nikken manage to put advanced PiMag Water Technology into a compact filtration system that operates without plumbing?

In this unique design, just as in every Nikken innovation, the technology in the PiMag Aqua Pour is based on natural forces. The system uses gravity and the natural properties of water.

The PiMag Aqua Pour features several stages of filtration. Water entering the system first passes through a microsponge prefilter that reduces particulates. Or use the supplied ceramic prefilter instead, for more intensive filtration at this stage.

Additional filtering is performed by ion exchange resin, activated carbon and zeolite. Carbon has been employed in laboratories and hospitals for centuries as a simple, natural form of filtration. Zeolite is a granular material that has exceptional filtering properties. The water flows between spheres of pi ceramic material during this process.

Item# 13631

The final stage features a bed of mineral stone — a naturally alkaline substance. The acid/alkaline balance of water is important. The mineral stones are another completely natural form of filtration.

The filtered PiMag water then passes through a magnetic field. A 1,200-gauss magnet ring is the source of this magnetic energy.

## Two models to choose from

Aqua Pour technology is offered in two versions: the PiMag Aqua Pour and the PiMag Aqua Pour Deluxe.

The **PiMag Aqua Pour** is a countertop system that can be placed anywhere there is a level surface. It requires no electricity or plumbing and produces PiMag water simply using the gravity principle.

The **PiMag Aqua Pour Deluxe** is designed for use with any standard water cooler or hot/cold water dispenser (not included). The combination is a freestanding unit that can deliver hot or chilled PiMag water for a wide variety of uses.

The PiMag technology in these two products is identical, so that whichever you select, you can enjoy the unsurpassed taste of PiMag water and Aqua Pour efficiency.

## A better idea than bottled water

Because the PiMag Aqua Pour is a system you can set up almost anywhere, it offers convenience that compares to bottled water. But consider the drawbacks to drinking bottled water. A supply of water bottles is heavy to store or carry. With the PiMag Aqua Pour, you just add water and produce PiMag water on the spot.

Commercially bottled water is expensive — PiMag water costs a fraction of the price. And with bottled water, the contents can vary depending on where or when it was bottled. The PiMag Aqua Pour provides consistent quality.

Most importantly, with the PiMag Aqua Pour you get more than water — you get PiMag water.

## Who needs a PiMag Aqua Pour

The PiMag Aqua Pour or Aqua Pour Deluxe Gravity Water System is a way to ensure that you always have PiMag water whenever you need it.

Your health — and the health of your family — depends on a supply of water at all times. The PiMag Aqua Pour is your assurance that you'll always have a practical, economical, ready source of healthy, delicious water.

Count on it — it's as reliable as gravity.

Enjoy PiMag water, the water of life!
