

KENKOSEAT® PLUS

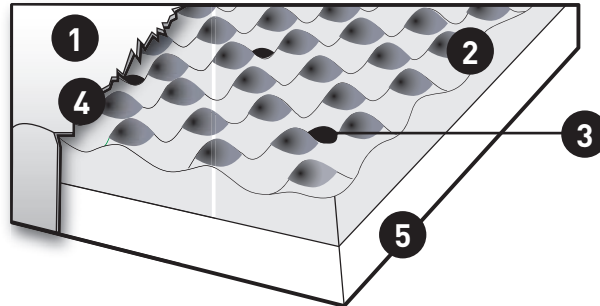

QUICK REFERENCE SHEET

- *Provides support and comfort while seated*
- *Nikken Magnetic Technology*
- *Nikken Far-Infrared Technology*
- *Nikken Rubberthane Technology*
- *Breathable for ventilation*
- *100% pure wool cover*

KenkoSeat Plus construction

- 1** Wool top cover
- 2** Rubberthane layer
- 3** Strategically-placed magnets
- 4** Far-infrared fibers
- 5** Supporting base material

KENKOSEAT PLUS FEATURES/BENEFITS:

- **Firm, cushioned support** Promotes correct posture for back.
- **Nikken Rubberthane** Gentle, passive massage effect increases relaxation.
- **Magnetic technology** Strategically placed magnets replicate the Earth's natural environment.
- **Far-Infrared fibers** Reflect energy as needed to maintain a comfortable temperature range.
- **Pure wool cover** A plush surface that is comfortable in all seasons.
- **Generous dimensions** Extend across the seating surface.
- **Security straps** Hold the KenkoSeat Plus firmly in place.

KENKOSEAT® PLUS

QUICK REFERENCE SHEET

THE FACTS

- Today, men and women spend the majority of their time in a sitting position, on the job and at home. KenkoSeat Plus features Nikken Magnetic Technology, Far-Infrared Technology and Rubberthane Technology — so that users can enjoy the benefits of the Kenko Sleep System even while awake.
- The KenkoSeat Plus uses single-pole surface magnets to replicate the earth’s natural magnetic field. Human beings have lived within this field for thousands of years, until modern civilization removed its influence. Nikken restores this environment with Magnetic Technology.
- Rubberthane is an exclusive Nikken technology that combines a surface of nodules with specially treated tips to produce a massaging effect that is activated by the sitter’s own natural motion. The result is like a relaxing, gentle massage.
- Far-Infrared Technology absorbs energy from any source — ambient temperature, sunlight, body heat — and reflects it in the form of far-infrared waves, for gentle warmth. This technology is self-limiting, releasing excess heat so that the KenkoSeat Plus helps maintain a comfortable temperature range in cool or warm weather.
- The ceramic-reflective fibers that provide Far-Infrared Technology are permanently infused into the seat fabric, for long life.
- The all-wool cover further increases comfort, with its soft surface and natural breathability. A microfiber-blend backing slips easily onto any chair or seat.
- The dual security straps are designed to attach the KenkoSeat Plus in seconds, for portability. It can be removed and transferred easily, to travel wherever you go.

PRODUCT INFORMATION

ITEM CODE	DESCRIPTION
#1409	KenkoSeat Plus
AVAILABILITY	
US: YES	CN: YES
FEATURED NIKKEN TECHNOLOGY	
Nikken Magnetic Technology, Far-Infrared Technology, Rubberthane Technology	
GAUSS RATING	
800 per magnet	
MATERIALS CONTAINED IN PRODUCT	
Polyurethane foam, magnetic disks, ceramic-reflective fibers, wool	
CARE INSTRUCTIONS	
Spot clean only, do not oversaturate. Do not jump or place heavy objects on seat.	
WARRANTY INFORMATION	
Six-month Nikken standard limited warranty	

CAUTION: If you use an electronic medical device such as a pacemaker, or have a magnetically sensitive surgical implant, do not use or wear magnetic products. Women in the first trimester of pregnancy, or anyone who has a health problem should first consult a physician before using magnetic products. Do not place magnetic products in direct contact with magnetically sensitive items such as watches, audio/video tapes, credit cards, portable electronic equipment, etc.

QUICK SHARING TIP

Try sitting on a chair without the KenkoSeat Plus and then slip it into place. The difference is immediately noticeable.

The average person spends several hours every day in a seated position — more time than for sleeping or standing. Wouldn't it be a good idea to have the benefits of Nikken Kenko technology during the day?
